

Introducing ...

3M™ Digital Projectors

Digital Projector Family

Style and Sophistication That Project the Right Image

Beneath the sleek lines of 3M™ Digital Projectors lies technology that delivers bright, clear images, intense color and easy connectivity to computer, video, audio and DVD equipment. Plus, all that technology is bundled into a lightweight, portable package, easily carried from an office to a conference room or classroom. 3M Digital Projectors deliver a vibrant, professional presentation every time.

3M Digital Projectors feature lumen values perfectly matched to the job. The lightweight, portable X15i lights up any presentation with only 1600 lumens, while the X80 has 4500 lumens for projection on auditorium-size screens. The new Digital Media System 700 Series offers Vikuiti™ Super Close Projection technology with the ideal lumens for closer distances with large screen sizes.

3M Digital Projectors feature the economical yet extraordinarily well defined 1024 x 768 XGA resolution. Selecting the proper aspect ratio for your presentation is also key to a quality visual experience. All 3M Digital Projectors offer both the native 4:3 ratio suited to spreadsheets and Power Point® presentations, and the 16:9 ratio for maximizing wide-screen video.

3M Digital Projectors boast contrast ratios from 300:1 to 750:1 for a vibrant spectrum of 16.7 million colors, and the keystone correction allows users to adjust the image for a uniform look across the screen. Finally, all 3M Digital Projectors feature at least one RGB port for easy PC connections. Several units also feature connections for DVD and video output.

Look to the 3M family of Digital Projectors for consistent brightness, contrast and uniformity-from virtually any viewing angle.

Backed 24/7 by 3M technical support.

3M X62

"Whether I need to present in a small classroom or large auditorium, there is a 3M projector that is perfect for my specific needs. They are lightweight and compact, so I can take them on the go, and they still give a clear, bright projected image every time."

Finding the Right Projector

From the classroom to the boardroom, select the perfect 3M Digital Projector for any environment.

	LUMENS	MODELS

	LUMENS	MODELS
Office or Home Use	1500	Digital Media System 700 / 710

3M Vikuiti Super Close Projection

Vikuiti Super Close Projection features a shorter projection beam that minimizes distracting shadows and light glare. It is the perfect solution for bright, clear images in almost any room.

USB Media Reader:
No need for a PC connection to make a .jpg presentation – great for mobile solutions

Built-in DVD Player (710 only):
Convenient rear feed

Vikuiti Super Close Projection:
Large image from a short distance keeping the projector out of the way

3M Digital Media System 710 Projector

Security Lock Bar (not available on all models):
Allows you to secure the projector in the classroom or boardroom

Front Mount Connectors:
Better organization of cables reduces clutter

Built-in Speakers & Sound:
Powerful Dolby™ 2.0 (700) and Dolby 5.1 (710) sound adds to any presentation
