52" DIGITAL SIGN BOARD

Impactful High-Definition Digital Poster

ViewSonic's new ePoster products make it easy to replace those old backlit printed signs with new impactful high-definition digital posters. These sleek new displays feature built-in memory for storing high impact graphics as well as a powerful management tool featuring a content scheduler, duration timer and special effects editor for image transitions. Retail messaging is easy with ViewSonic's new ePoster family of retail displays. Information is disseminated through the ePoster's internal network connection or locally via the USB port. ViewSonic's new ePoster products are available in various sizes and models and can be free standing or wall mounted. Great for announcing special promotions, computer-generated information or communicating multimedia with photos, audio, signage, and video.

- > **52" Full HD 1920x1080 display resolution**
